As a licensed engineer, Metaphysics lecturer and noted spiritual counselor, author Vipin Mehta, P.E., M.A.P.A. applies his knowledge of engineering and physics to describe the inner workings of the human mind and how Metaphysical knowledge can be the key to cultivating understanding and peace. Released by Fulbright Publishing four years after his first book *Thinking Outside the Box*, the final two installments of Mehta's *Global Healing* book series – *Awakening Spirituality* and *New Vistas of Hope* – delve into how human consciousness can evolve from nationalism to globalism and from patriotism to humanism, ultimately achieving peace through Global Healing.

Born in India and raised in Mumbai during the Independence Movement, Vipin Mehta's interest in Metaphysics began in 1947, when he was first exposed to Mahatma Gandhi's teachings. He went on to study the work of Spiritual Masters including the Indian mystics Krishnamurthy, Rabindranath Tagore (1912 Nobel Prize Winner) and Osho along with Western spiritualists such as Edgar Cayce and Ruth Montgomery. Mehta added to this by studying the scriptures of everything from Hinduism, Taoism, and Jainism to Christianity, Judaism, Islam, and Sufi. Shortly after migrating to the U.S. in 1969 he became a licensed Professional Engineer and established a construction management firm for building roads, bridges, airports, and other transportation infrastructure related projects. His work on civil public works projects also prompted Mehta to receive a Masters in Public Affairs and play a very active role in local, state and national politics. However, his spiritual work was always foremost in his thoughts.

Having built roads, bridges and other complex structures designed to link people together in the physical realm, Mehta saw how these same engineering and science principles could be used to help people construct their "reality" according to their own visions and desires. This along with his political activity, led Mehta to teach and give lectures on Metaphysics across the U.S. and India and resulted in Mehta being addressed as the Metaphysical and Spiritual Counselor to many politicians – both Democrat and Republican. 2) Vipin introduced himself by Profession he is an Engineer running Mehta (Consulting) Engineering Company for more than 35 years, and by Passion he is a Metaphysician and Spiritualist. Vipin gave the definition of Metaphysics "Meta means beyond, Metaphysics is beyond Physics; Beyond Space-Time-Dimension. The brain is within Space-Time while the Mind is beyond Space-Time. The mind is a flow of thoughts and feelings, grammatically it is a noun but actually it is a process-Verb the same thing like a river is a flow of water, and traffic is a flow of vehicles. Similarly Imagination (5th Dimension), Creativity (6th Dimension), Angels, Soul, Spirit, God/Goddess/All That IS are beyond Space-Time-Dimension.

3) By definition Engineering is to accomplish a desired goal by planning, designing, and manifesting/manufacturing in physical reality, this mostly deals with the mineral kingdom like Civil. Like Mechanical, Electrical, Automobile, Electronic and other Engineering. Metaphysical Engineering deals with thoughts, feelings, images, creativity by design to accomplish the goal and then manifesting.

4) Â Â Â In general it is believed that love happens, but love can be developed and there is an Artistry of Developing Love. It starts with the first component is of Exalted Giving, just because you love to Give. The second one is Respond, you Respond in any Loving relationship immediately and take the responsibility. The third component is to Respect, Respect yourself and whom you Love Emotional and Mentally, and this continues the Metaphysical Engineering of Consciously Creating Love.
