This work is a doubly welcome addition to the growing number of studies on Pakistan's formative period. First, the reader is able to benefit from the author's sustained scholarly engagement with this topic. Second, it is good to have a piece provided by a historian who plies his professional trade within Pakistan ... both competent and accessible. It is sure to enlighten and entertain a general readership in Pakistan ... It is hoped that a new generation of Pakistani scholars will draw inspiration from the lucidity and wisdom with which M. Rafique Afzal writes.
