For the price this was going for (.99) I decided to take a chance that it was what I needed to help teach mid-grade grammar. I was not disappointed, it is very helpful, but you need to know this subject fairly well because it doesn't come with an "answer sheet" or teacher's book. I think each section in this workbook is explained thoroughly enough that any reasonably intelligent adult should be able to correct their child's work in it without too much trouble. :o)
