It provides step-by-step procedures as well as hundreds of company startup and operating strategies. There is even a section showing readers how to create a mini- "one day business plan" in a single afternoon to give any current ideas they have a needed focus when time is of essence. Successful Business Planning in 30 Days is currently used in colleges and universities in America and abroad.

WHAT you are about to read and explore is the end product of eight years of intensive labor. It is difficult for me to fathom that the original conception of this guide was a considerably humbler version. Suffice to say that I am indebted to hundreds, if not thousands of mentors, unsung oarsmen who kept propelling me on to create something bigger and better than my original conception.

Successful Business Planning in 30 Days provides an important key to writing a business plan and starting your own business, providing the charts, worksheets and graphs needed to make decisions. Libraries may find the workbook approach not quite suitable for lending, but there's more than just a set of blank pages for fillin here: chapters pack in essential details on how to create everything from recordkeeping systems to business plans.
