Concurrent reduction of draft height and heat-exchange area for large dry cooling towers, Franklin Kingston Moore, Tony Hsieh, 1974, Technology & Engineering, 56 pages.

I missed the mark on this one and was unimpressed with the entire "comic" book idea. Amazon's service was great as always and I can't complain at all about Amazon - strictly a product review. I wouldn't recommend the book to anyone. It's my own fault really for purchasing because the truth is, I didn't like the whole comic book layout/story. If that's what you like - you may enjoy it.

Edit: I did read this on my friends Kindle after Amazon gave me a refund for the one I bought, I guess you can buy this on kindle if you can click on every page to zoom in and out, The Kindle version gets 2 stars just cause it is annoying to do this. But the book it self gets 5, it is amazing and I really loved it, it shows you that having the right people around you can really make a difference.

Pay new employees \$2000 to quit. Make customer service the entire company, not just a department. Focus on company culture as the #1 priority. Apply research from the science of happiness to running a business. Help employees grow both personally and professionally. Seek to change the world. Oh, and make money too.

DelivÂ-erÂ-ing HapÂ-piÂ-ness: A Path to ProfÂ-its PasÂ-sion and PurÂ-pose by Tony Hsieh is a wonÂ-derÂ-ful graphic adapÂ-taÂ-tion of the book and cerÂ-tainly brings out the main points across. As with many good busiÂ-ness books, this one also left me with ideas on how to impleÂ-ment what I learned at my job.

Zappos CEO Hsieh offers a compelling account of his transformation from callow Harvard student entrepreneur through his years as a dot-com wunderkind to the creator of a formidable brand. Interest might flag as Hsieh, fresh off selling his Internet company LinkExchange to Yahoo in 1999 for \$265 million, kvetches about lacking fulfillment. But as the tech boom bursts, and Hsieh confronts his dwindling investments, his story comes alive.

In 1999, at the age of 24, Tony Hsieh (pronounced Shay) sold LinkExchange, the company he co-founded, to Microsoft for \$265 million. He then joined Zappos.com as an advisor and investor, and eventually became CEO, where he helped Zappos.com grow from almost no sales to over \$1 billion in gross merchandise sales annually, while simultaneously making Fortune magazine's annual "Best Companies to Work For― list. In November 2009, Zappos.com was acquired by Amazon.com in a deal valued at \$1.2 billion on the day of closing.

Tony's first book, Delivering Happiness, was published on June 7, 2010, and outlines his path from starting a worm farm to life at Zappos.com. Tony shows how a very different kind of corporate culture is a powerful model for achieving success and happiness. Delivering Happiness debuted at #1 on the New York Times Bestseller list and remained on the list for 27 consecutive weeks.

Tony is an entreÂ-preÂ-neur by blood. He started his own earthÂ-worm farm at 9, moved on to newsÂ-paÂ-per routes and made cusÂ-tom butÂ-tons and more. As Tony disÂ-covÂ-ered comÂ-putÂ-ers he became a tester for video games, a proÂ-gramÂ-mer and worked for OraÂ-cle while creÂ-atÂ-ing LinkExÂ-change. Tony's comÂ-pany was sold to Microsoft for \$265 million.

Always lookÂ-ing for the next great opporÂ-tuÂ-nity, Tony started a venÂ-ture capÂ-iÂ-tal comÂ-pany and got involved with Zappos.com. Along the way the author learned many life lessons, includÂ-ing his desire to be fulÂ-filled. A desire, I must say, which is much easÂ-ier to achieve with a

pocket full of money!
