Terry Pratchett is a publishing phenomenon. He has sold more than 65 million copies of his books worldwide, and among his many prizes and citations are the World Fantasy Award, the Carnegie Medal, the BSFA Award, eight honorary doctorates and, of course, a knighthood. Sir Terry Pratchett is best known for his Discworld series, set on a flat planet, supported on the backs of four elephants, who in turn stand on the back of the great turtle A'Tuin as it swims majestically through space. Four of these novels - *Hogfather*, *Going Postal*, *The Colour of Magic* and *The Light Fantastic* - have been adapted for television, with more to follow. He lives near Salisbury in Wiltshire.

I took a gamble buying this book, as it was my first time reading Pratchett. But after finishing the Trilogy, I was hooked. Since then I have read fourteen other Pratchett books, but *The Witches Trilogy* is still one of my favourites! I particularly liked *Equal Rights*, as it starts out great and finishes great. I love Pratchett and would definitely recommend *The Witches Trilogy* to anyone wanting to get into Fantasy Books!

Having read quite a lot of Sir Terence's works, i'm convinced that the *Witches Trilogy* is by far the best of all the Discworld novels. Jokes and humour apart, the trilogy is one of the best specimen of Sir Terence's unique and humane philosophy and world view. And of course there's quite a bit of "headology" involved :-D

Sir Terry Pratchett sold his first story when he was thirteen, which earned him enough money to buy a second-hand typewriter. His first novel, a humorous fantasy entitled *The Carpet People*, appeared in 1971 from the publisher Colin Smythe. His first novel, a humorous fantasy entitled *The Carpet People*, appeared in 1971 from the publisher Colin Smythe. Terry worked for many years as a journalist and press officer, writing in his spare time and publishing a number of novels, including his first Discworld novel, *The Color of Magic*, in 1983. In 1987 he turned to writing full time, and has not looked back since. To date there are a total of 39 books in the Discworld series, of which four (so far) are written for children. The first of these, *The Amazing Maurice and His Educated Rodents*, won the Carnegie Medal. A non-Discworld book, *Good Omens*, his 1990 collaboration with Neil Gaiman, has been a longtime bestseller, and was reissued in hardcover by William Morrow in early 2006 (it is also available as a mass market paperback (Harper Torch, 2006) and trade paperback (Harper Paperbacks, 2006). In 2008, Harper Children's published Terry's standalone non-Discworld YA novel, *Nation*. Terry's latest book, *Snuff*, was published in October 2011.

Regarded as one of the most significant contemporary English-language satirists, Pratchett has won numerous literary awards, was named an Officer of the British Empire "for services to literature" in 1998, and has received four honorary doctorates from the Universities of Warwick, Portsmouth, Bath, and Bristol. His acclaimed novels have sold more than 45 million copies (give or take a few) and have been translated into 33 languages.

Equal Rites still deals with magic, witches, wizards, why men can't be witches and women can't be wizards, and all that. Wyrd Sisters examines how the power of words can affect reality, how such power doesn't always turn out the way it should, and uses a fair dose of Shakespeare to do so. Finally, Witches Abroad lampoons a bunch of fairy tales to illustrate how powerful stories can be.

It took me nearly six months to finish this book. And that's not because of the book itself. As usual with Pratchett, it's a ton of fun. No, I blame the tiny change I made to my daily schedule, on accord of which my just-before-bedtime-reading dwindled down to just a couple of pages a day. On a good night.
