Dennis Prince was saved in his last year of university. He trained as a civil engineer and lectured in that discipline for about ten years. He has been a pastor in a charismatic church for twenty-seven years. He and his wife, Nolene, have been publishing praise and worship resources in Australia since 1981 (www.resource.com.au). These resources are used widely by all denominations. Dennis and Nolene have three married children and three grandchildren.

This book is so encouraging for anyone who has lost a loved one. And especially for anyone who has lost a baby. I ordered this while looking for Rebecca Springer's book, "My Dream of Heaven". These two books are both must reads for anyone who really wants to know what heaven is like with detailed descriptions that are uplifting and stunning! These are both page turners and I hope many of you will buy copies for yourself and your friends who will want to read these two books for

themselves! Enjoy and spread the "Good News" to others!

This is a very interesting book! Dennis Prince has rewritten this book from the original book of Marietta Davis's CAUGHT UP INTO HEAVEN, into a book with easier language that we can better understand, for our time that we live in today, without changing Marietta's story! Dennis with the help of his wife, did a outstanding job! This book is very special to Dennis Prince and his wife Nolene, because of a very sad event, that happen in their life.

This is a very detailed account of what happened to her during those nine days, she saw HEAVEN, and HELL. She also gives a detailed account on what happens to BABIES, in heaven. I believe that there are different levels or sections, that are in heaven and hell, and that Marietta was shown some of them. You would not believe all the wonderful things she saw in heaven, and the sorrows she saw in hell.

The writing in this book has been adapted for the modern reader but it still retains the "voice" of the original author. The descriptions of heaven and hell are extremely detailed and precise. The author's emotions also seem honest and real. The descriptions of heaven seem to mainly focus on the places where babies go when they die prematurely. The descriptions of hell focus mainly on places where there are illusions. Like water is actually molten lead and fruit from trees burn you if you try to taste them. It seems like the author only visited one part of hell and for a very brief time.

What is somewhat suspect about this book is the use of bible verses to the extent that the book feels more like a sermon than a revelation of experience. While I have no objection to biblical verses they may lead some to conclude that the book was written more to save the soul than to document an out-of-body experience.

How did the author remember detailed conversations with guides in heaven? She must have had quite a memory because the conversations are highly detailed. Unlike other accounts, Mariette Davis actually meets God. Most experiences tell of meeting Jesus or a being of light so most don't seem sure they have met God and God seems to be in a part of heaven where you are not allowed to go unless you are really dead. So that was different.

I loved this book! I have read several books on the subject on heaven and hell, and near death experiences, but this book went into more details than I had ever read before. It opened my eyes more to what awaits every believer in Christ on the other side (in Heaven), and the fact that God intends this place of eternal bliss to everyone who believes in His Son. It speaks of heaven, but there is also an account where the author briefly went to hell to see the other side of the coin (so to speak). I can personally say that I have been tremendously blessed after reading this book. Passages I have read in the bible on the subject are now much clearer to me. Best of all, my walk in Christ has been tremendously strengthened and encouraged after reading this book. I wholeheartedly recommend it to everyone, especially those who want to know if there is life after death; what awaits believers and non-believers in Christ on the other side; and the great importance that God places on getting people saved. One final point: there is a scripture (Luke 16:19-31) about a rich man who died and went to hell and in great torture and sorrow, begged to have someone from the grave go back and warn his loved ones about the terror and torture of that place, and the need to avoid it. Well, this book is it: God's warning to the world, except that it focuses not on the place to avoid (hell), but the place everyone can go to if they accept and believe in Jesus Christ (heaven). Read it, enjoy it, but most of all, change! God bless you.

I have to admit a real bias against such books at the outset. Anyone who starts trying to describe heaven and hell in concrete terms loses credibility right for me because humans have no real frame of reference by which to attempt it, neither imagination, nor experience nor even the bible itself, which is actually pretty sparing with actual descriptions of the afterlife. And those who claim they do have experience always describe a world that is entirely...more Read for a friend who wanted my comments.

I was impressed by some of it. The language and writing is colorful, the author's view of the heaven and hell is not always so stereotypical. I like what it says about what separation from God might metaphorically feel like and what actually causes suffering there. Also I liked the description of how painful heaven and pure goodness would be to us who, being filled with evil, would suffer miserably in its presence without radical change.

But for the most part the book reflects another failed attempt to describe what cannot be adequately described by and to finite and fallen human minds. I think that's why the writers of the biblical apocalyptic documents never tried to describe heaven and hell in concrete terms but in metaphorical terms.(less)

Nine Days in Heaven by Dennis & Nolene Prince is the classic story of Marietta Davis' vision of Heaven updated with contemporary language for today's readers. In 1848 a twenty-five-year old woman named Marietta Davis lapsed into a coma or trance. Her family worried and prayed over her body for nine days, while doctors tried to determine the cause of her illness. When she awoke, Marietta spoke of a vision she had been given by God of Heaven and Hell for those here on earth, as well as for the woman herself. Her family had recently come to faith in the Lord, but she had had questions and doubts. Her journey erased those doubts for her, and she died seven months later in exactly the time and manner she had predicted after her trance. Her story was written down by John Loughran Scott and became well-known, but in time it lost its popularity because it was written in the flowery language of the day which by the twentieth century has become quite impenetrable. When the Princes lost two infants in less than seventeen months, a friend gave them a copy of the original book and it gave them great comfort. Dennis determined to update this powerful testimony for modern readers. This book is his labor of love. Marietta is whisked away first to the lower realms of Heaven, then down to Hell, then back up to Heaven where she witnesses how infants are raised in the Holy City. She is moved to tears several times by the depth of her own sinful nature, and she comes to understand the wisdom of God's decision to separate his children from those who refuse to follow him. Prince supports each chapter with several verses from Scripture giving added depth and meaning to Marietta's vision. The school for infants will offer comfort for anyone who has lost a child too soon. There is a great deal of wisdom here for readers who are familiar with the Bible and those not so familiar. Her description of Hell isn't that of pop culture with flames and demons with pitchforks; it is frighteningly believable and real. Pop culture's hell is easily parodied and ignored. Marietta's refuses to be denied and will create an indelible image in readers' minds. I would have liked to have read more about Heaven itself and less of the trial between Justine and Mercy, but I was still very moved by Marietta's vision. The Princes have given Christian readers a great gift in updating this classic for today's readers.(less)

Upon first arriving in heaven, Marietta meets a little boy. She's able to see his parents on earth, grieving for him. The boy asks her to give his parents a message when she goes back: "tell them we are happy here. Tell them we have no sorrow. We are always with our guardians, and we love everyone " and Jesus our Redeemer above all. Tell them we are waiting patiently for their arrival here..." Before coming back to earth, Marietta met Jesus. He told her to tell what she experienced and that she'd soon be back and wouldn't have to leave.

This book was very insightful. Heaven is something that's hard for me to comprehend so to read of someone who had a vision makes it seem slightly more real for me. I had never thought about children needing to be educated on the things of God. I think this book could be a good starting place on understanding heaven.

In 1848, twenty-five year old Marietta Davis suddenly fell into a medically unexplainable trance which lasted for nine days. When she came to, she told in detail of the vision of Heaven and Hell she had experienced while in the trance. Enlightening and inspirational, the portrayal ties into verses and teachings from the Bible. A large part of the book describes how children who have died are cherished and taught the lessons of God.

More than 150 years ago in upstate New York, twenty-five-year-old Marietta Davis had stubbornly

resisted the winds of revival that were blowing through her town. That is until seven months later, when she fell into a trance and was shown the beauties of heaven and the horrors of hell. The experience transformed the remainder of the young woman's life and sobered all who heard her story.

Seven months after the vision - at the time and in the manner she had predicted - Marietta died. But before her homegoing, she wrote a vivid portrayal of her experience that remained in print one hundred years after her death. Now her story is available for a new generation of readers. The nineteenth-century language of the original edition has been updated for readability, but the detailed depiction of her vision remains untouched.

Dennis Prince, after working for nine years as a lecturer in civil engineering, attended Bible college and in 1976 assisted in planting a thriving church, the Christian Resource Centre, in Melbourne, Australia. During this time he and his wife, Nolene, also published the Resource Song Book Series, which is now widely used in Australia and beyond. Today he concentrates on writing and Bible teaching.

Nolene Prince, earned a bachelor's degree in music, specializing in singing, and after teaching school music also attended Bible college. She then directed her efforts to raising their children, church and music ministry, and the selection, arrangement, and recording of songs for their publications. The Princes live in Melbourne and have three married children, and three grandchildren.

She awoke nine days later, to describe in graphic detail her remarkable visit to heaven and hell. Her testimony was supported by Marietta's mother, physician, publisher and ministers of religion. Her pastor recorded her words, which were then published. The book remains in print today and has inspired thousands over the years. Unfortunately the original complex and verbose language makes the story extremely difficult to understand. (Read some examples.)
