

Fabric for the designed Interior, Frank Theodore Koe, Fairchild Publications, 2007, 1563674076, 9781563674075, 302 pages. From curtains to carpets, fabric plays a major role in the interiors we live and work in. But it's about more than just what looks good. Interior designers and architects need to thoroughly understand fabric in order to create effective design-and satisfy their clients. Fabric for the Designed Interior is a comprehensive guide for both students and professionals. The first part of the book places fabric in an historical context, examining fiber origin, construction, and the evolving technologies of production. How-to chapters provide readers with the tools they need for working: ways to choose fabrics for different uses, environment and safety concerns, how to work with bids and contracts, places to acquire fabrics, tips for navigating showrooms and workrooms, and fabric care techniques. Leading designers and manufacturers weigh in with their experiences, giving readers a clear idea of real-world expectations. Accompanying DVD..
