Disparate regulations, customs, and accounting practices throughout Europe present financial professionals with constant challenges: to help meet these challenges our Guide includes extensive historical background on the legal and economic environments, an examination of the different accounting standards and self-regulatory agencies, and presents sample financial statements. The Guide also covers the changes taking place as a result of European unification, and discusses the implications of the attempts to harmonise accounting and reporting practices.

Find in-depth analyses of 25 countries -- including Eastern Europe, the Baltic States, Belarus, and the Russian Federation. You'll gain critical insight on accounting standards as well as the statutory and self-regulatory agencies. We even provide examples that illustrate routine and unusual accounting situations.
